

Harmonisation of EU-wide nanomechanics protocols and relevant data exchange procedures, across representative cases; standardisation, interoperability, data workflow

1st Exploitation and Dissemination Open Day Workshop

Announcement

The NanoMECommons project is pleased to announce its **1st Exploitation and Dissemination Open Day Workshop**. This event is being hosted by the project partner Ansys UK at:

Location: Ansys UK Ltd. 62 Clifton Road, Cambridge, CB1 7EG, UK (Hybrid meeting)

Date: 3-4 July 2023

The Open Day will be a great opportunity to meet the **nanomecommons** partners, learn about their products, and services as well as about the project.

The NanoMECommons aim to establish a transnational and multidisciplinary research and innovation network to tackle the problem of nanomechanical materials characterisation in multiple industries.

The NanoMECommons is a 4-year project, which started in February 2021 and it is led by the National Technical University of Athens (NTUA). This project is funded by the EU Horizon 2020 Programme, and it has the participation of 19 partners, including leading multinational corporations such as BASF, Thales, Fiat (Stellantis), Ansys and Keysight, supported by leading research institutes such as, Fraunhofer, ESRF and Sintef.

Participation is free but registration is required. If you are interested in attending, register your interest at: www.nanomecommons.net/openday or send an email to the Exploitation and Dissemination Management at: info@nanomecommons.eu

This project is supported by the European Union under the HORIZON2020 Framework Programme Grant Agreement no. 952869.
